Hi Team,

I have another new user, Brian Nash, experiencing the same issue we saw previously. When he logs in and attempts a VIN decode, the VIN attributes fail to load.

You were able to resolve the recent issue with Pierce Ford quickly as a simple glitch, and I am hoping for a similar resolution here. I am working on getting my team's buy-in, so resolving these technical snags is a priority.

Thanks,
Mac

Team,

I am experiencing it now as well with my login.

Thanks,
Mac
